Instructions for echo

The test takes approximately 30 minutes; no fasting or special preparation is required.

Instructions for exercise stress echo / exercise stress test

The test will involve walking on a treadmill, which gradually increases in speed. Test takes approximately 30 minutes. One of our staff members will explain the procedure in more detail as soon as you arrive. Please feel free to ask any questions and share any concerns prior to the test.

Clothing

You will require loose fitting clothes and comfortable walking shoes or runners.

Medication

You should continue all your regular medication UNLESS specifically instructed by your doctor.

As you will be exercising, we suggest you eat only a light meal prior to the procedure and please avoid exercise on the day of your test.
